TO BE COMPLETED BY FAX OPERATOR

TIME TRANSMITTED: _____ TRANSMITTED BY: _____

This transmittal is intended only for the use of the individual or entity to which it is addressed, and may contain information that is privileged, confidential and exempt from disclosure under applicable law. If the reader of this transmittal is not the intended recipient or the employee or agent responsible for delivering the transmittal to the intended recipient, you are hereby notified that any dissemination, distribution or copying of this communication is strictly prohibited. If you have received this communication in error, please notify us immediately by telephone, and delete the original message to us by mail in the above address. Thank you.

~~a jack connection for directly connecting said digital memory means of the device to a television for reproducing or a computer for downloading said recorded images and said recorded sounds from said digital memory means.~~

Draft Amendment

C-4 Add the following new claims 64-69:

64. A handheld portable cellular telephone ~~[with]~~ ^{having additional} information, video and audio capabilities ^{by a person} ~~[for communicating with the integral]~~ ^{with the} cellular telephone which is normally for ordinary use for ordinary calls comprising:

a camera, a microphone and an ordinary cellular telephone electrically connected and mounted in the same and a conventional housing of a size and weight for being handheld by a person; said cellular telephone having a microphone, a speaker and a dial pad accessible for selective use by the person for placing and receiving normal person to person telephone calls as with a conventional cellular telephone; battery means in the housing for supplying electrical power to said camera, microphone and said cellular telephone; means for selectively activating said camera and said microphone for capturing images and sound ^{means for recording the images and sounds} within a range of said housing; and means for activating said cellular telephone for wirelessly communicating with a specific remotely located telephone at a remote site by automatically dialing the number of the said specific remotely located telephone in response to the person's command or pre-selected automatic sensing means and, when said cellular telephone and said remote site are telephonically connected, the stored or current images and sounds from said camera and said microphone are transmitted to the said connected remote site by ^{an} ~~the~~ audio means of the said ordinary cellular telephone via encoded data means of a

modem; and said recording of ^{images} video ^{sounds} and audio information can be either from automatic sensing means activating said recording or ^{means} from the person's commands, and said recordings are conveyed either by the person selected dialing or pre-selected automatic dialing ^{means} and conveyance means.

65. The handheld cellular telephone of claim 64, wherein said automatic sensing means includes a motion sensor.

66. The handheld cellular telephone of claim 64, wherein said automatic sensing means includes an infrared sensor.

67. The handheld cellular telephone of claim 64, wherein said automatic sensing means includes an ultrasonic sensor.

68. The handheld cellular telephone of claim 65, wherein said automatic sensing means includes an ultrasonic sensor.

69. The handheld cellular telephone of claim 66, wherein said automatic sensing means includes an ultrasonic sensor.

REMARKS

The Office Action mailed November 7, 2000 (hereinafter "the Office Action") rejects all of the previously pending claims as unpatentably obvious under 35 U.S.C. § 103 by citing and applying
